OPTY-SOLAR SHIELD®
THERMAL COATING

10 YEAR SPECIFIC PRODUCT LIMITED WARRANTY

Optimize Coatings, LLC, warrants OPTY-Solar Shield to be free of defects in manufacturing and to conform to our rigid quality control standards.

This warranty does not apply to cover failures due to improper application. Proper application includes, among other things, the requirement that the product be applied to a clean, dry, sound surface and according to manufacturer's application instructions and specification. If old paint is found on back side of failed product, this shall be Prima-Facie evidence that the OPTY-Solar Shield product was applied to an unsound and unsuitable surface.

Optimize Coatings, LLC shall not be liable for incidental or consequential damages from any causes whatsoever.

This warranty is in lieu of the implied warranty of merchantability and all other warranties expressed or implied. This warranty applies only to the purchaser of Optimize, LLC products and cannot be extended to any other person. This warranty shall extend for a period of ten (10) years from the date the installation of OPTY-Solar Shield is completed.

The obligation of Optimize Coatings, LLC shall be limited to the refund of the purchase price of the OPTY-Solar Shield material or to the replacement of that portion of the material which is defective.

If any of the OPTY-Solar Shield product warranted against defect proves to be defective, the OPTY-Solar Shield purchaser must notify Optimize Coatings, LLC of the defect, providing dated proof of purchase.

NOTE: Although OPTY-Solar Shield products are effectively being used as an insulator on pipes, boilers, exhaust systems, etc., such applications are not warranted due to the widely varying conditions and extreme temperatures encountered. Also, this product effectively seals small leaks and cracks in roofs, walls and other surfaces applied. WARNING: This warranty is void if it is determined that the product has been allowed to freeze or altered in any way or mixed with other additives.
