

XGEN COATING SYSTEM™

Solutions. Delivered.

APPLICATION CASE STUDY:

Project Description: Apply Product to Tile & Grout Flooring

Customer: TouchPoint
(A Division of Compass Group)

Location: St. Vincent Hospital, Bridgeport, Connecticut

Date: November, 2015

PROJECT DETAILS

Project Overview: The tile and grout floors at the hospital were constantly dirty and difficult to keep clean. Client wanted floors to have a clean and glossy appearance for employees, patients and visitors. A more slip-resistant floor with better foot traction was also required.

xGen Product Purchased Through: PPG Louisville / Chris Carnes, Sales Representative

Customer Contact: Todd Gartrell, Vice-President of Operation (Regional Contact)
Elisete Oliveira-Lisboa, Assistant Director, EVS (Local Contact)

PRODUCT DETAILS

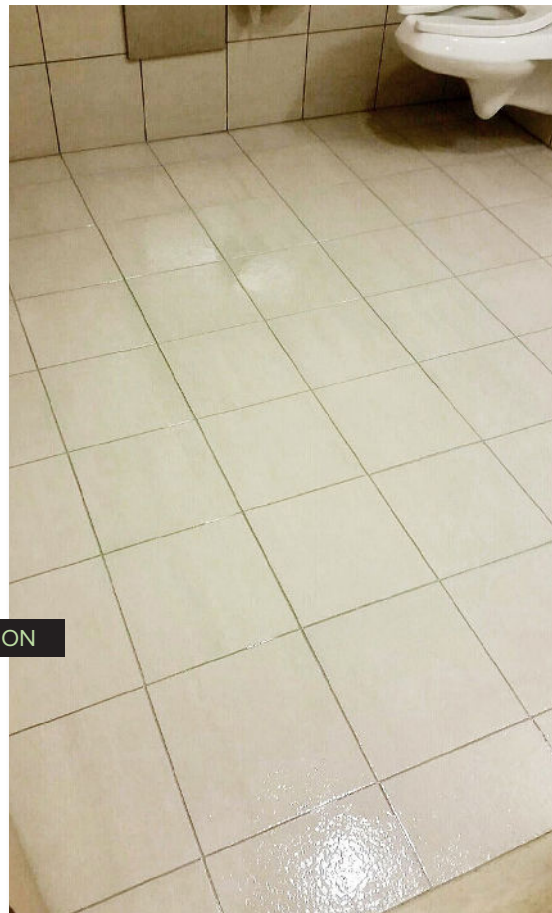

xGen Product Utilized: X-PROTECT Performance Topcoat - High-Gloss

Features & Benefits: X-PROTECT Performance Top Coat provided a beautiful, glossy, "like new" finish to the tile and grout floors. Color Seal was used to recoat the grout lines which will resist dirt, mold and mildew from entering the porous grout. The applicator had never used this product and was impressed with the ease of mixing and applying this xGen product. Future cleaning has been simplified to hot water and safe cleaners, which was an important factor for the hospital in choosing this coating.
